THE RESURRECTION OR PERSIAN PILLS.

These pills have been the greatest weakness, distress and suffering, to a state of strength, health and happiness. The name of the Pills originated from the circumstance of the medicine being found only in the cemeteries of Persia. This vegetable production being of a peculiar kind, led to experiments as to its medicinal qualities and virtues. In half a century it became an established medicine for the diseases of that country. The extract of this singular production was introduced in some parts of Europe in the year 1783, and used by many celebrated physicians in curing certain diseases where all other medicines had been used in vain. Early in the year 1792, the extract was combined with a certain vegetable medicine imported from Persia, in the East Indies, and formed into pills. The admirable effect of this compound upon the human system, led physicians and families into its general use. Their long established character, their universal and healing virtues, the detergent and cleansing qualities of their specific action upon the glandular part of the system, are such as will sustain their reputation and general use in the American Republic.

CERTIFICATES.
I certify that I have, by way of experiment, used the Hygean, and most of the various kinds of Pills, in my practice which have borne the highest reputation in the public estimation, that have been offered for sale in this vicinity for the last five years, including those called the Resurrection or Persian Pills; and the public are assured that none among the whole catalogue has answered a better purpose, as an easy and effectual remedy, than the Resurrection or Persian Pills, in most cases of disease.

CHAS. BACKUS, M. D.

Rochester, N. Y. Sept. 21, 1837.

TO MOTHERS.

MISSISSA. E. C. and Co.—General Agents—Having much said about the extraordinary effects of the Resurrection or Persian Pills upon those about to become Mothers. We were induced to make a trial of them. My wife was at the time the mother of 5 children, and had suffered the most tedious and excruciating pains during and after her confinement of each. She had tried every means and taken much medicine, but found little or no relief. She commenced taking the Persian Pills about 3 months before her confinement, (her health being very poor about the length of time previous), and soon after was enabled by their use to attend to the care of a mother to her family until her confinement. At the time she commenced taking the Persian Pills, and for several weeks previous she was afflicted with a dry hard cough and frequent severe cramps, which the use of the Pills entirely removed before she was half a box. It is with great confidence that we advise all those about to become Mothers, to make use of the Persian Pills. All those that have taken them in our neighborhood have got along in the same easy manner, and are about house in a few days. There does not appear to be half the danger of other difficult deliveries as when these pills were taken. Rochester, May 14, 1839; corner of Caledonia square, Ed. labor street. For further particulars see subscribers.

A. O. ROBERTS.

From the Rochester Daily Democrat.

Mr. Editor—Allow me, through the medium of your paper, to express my opinion of the highly extolled Resurrection or Persian Pills; that all who have become acquainted with them, dismise every other popular remedy from their families and rely solely upon these. But it is a fact, not generally known as should be, that such persons invariably escape all the prevalent diseases of the season, and that not one has been known to be taken down with any sickness, who has kept and taken these pills on the first symptoms of disease.

Mothers will have no excuse, but must charge themselves with unpardonable neglect when they see their tender offspring drooping and sinking under diarrhoea and bowel complaints, or their lives in the bud, by neglected disease.

The increasing prevalence of consumption, excites great fear in those who are inclined to that fell disease, and well it may—but I am persuaded that if the Persian Pills were taken in its first stages according to the directions, nine tenths of those who are given over, might enjoy good health.

In fact, I speak with some degree of experience, for I have known several who have been given over by physicians, to recover by using these pills. Should not this be a sufficient inducement for those who are in its first stages to make a trial of them? The time has come, when the heads of families can supply themselves with an antidote, which will quell in embryo the disease of the day—and to themselves is the fault chargeable if they allow the different members of their families to sink to an untimely grave.

Aug. 24. A SUBSCRIBER.

JEW DAVIDS OR HEBREW PLASTER.

This receipt, obtained of an old Jew, by a traveller in the Persian countries, holds fair to be of immense value to the Western world.

A gentleman travelling in the south of Europe, and Palestine, in 1830, heard so much said in the latter place in praise of Jew David's PLASTER; that he was induced to try it on his own person, for a lung and liver affection, the removal of which had been the chief object of his journey.

He accordingly applied a plaster on each side of the chest, where the pain was seated, anterior between the shoulders, and one over the region of the liver. In the mean time he drank freely of an herb tea of laxative qualities. He soon found his health improving; and in a few weeks his cough left him, the salivaceous of his skin disappeared, his pain was removed and his health became permanently reinstated.

Since that time he has been recommending it to his friends and acquaintances, for all the fixed pains whatever, such as rheumatism, gout, headache, nervous toothache, pain in the side, hip, back and limbs, stone humors, knots, warts, white swelling, hard tumors, stiff joints, ague in the breast, and the like to the united satisfaction of himself and others.

No female subject to pain or weakness in the back or side, should be without it. Married ladies, in delicate situations, find great relief from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, phlegm and lung affections, in their primary stages. It destroys inflammation by producing copious perspiration.

No puffing, or great spread of certificates intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient copies of the same for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most common prints a single time.

The above valuable medicines sold by John P. Chapin, New Philadelphia, E. J. Bardsall & Co., Dover, David Judd, Lockport, Keyes & Williams, Bolivar, Albert Bates grocery Shawville, C. Wheelz, Zoon, James C. Bell, Sugar Creek Falls, P. P. Laffer, Sandyville, Wm. Jenkins, Carrollton, McDowell & Miller, Millersburg, Price 25 cents with directions.

Principal office, No. 67 Wood Street, Pittsburgh; August 13, 1841.

NEW LABELS FOR THE BRANDRETH PILL BOX.

These labels are of the most costly, and at the same time most ingenious style. The top label has over ninety thousand lines upon it which is made to represent the most minute net work. The lower part of the box is very prettily designed, and contains an innumerable number of wavy lines. And these words—"see that labels on this box agree with those on the certificate; no others are genuine." The side of the box is beautifully engraved, and contains the following caution, no Brandreth Pills are genuine unless the box has three of fac-simile signature upon it." In a very handsome is also, "Entered according to act of Congress, in the year 1841, by B. Brandreth, in the Clerk's office of the District Court of the Southern District of New York."

BARBERISM!!

THE subscriber would respectfully inform the citizens of New Philadelphia and vicinity, that he has opened a shop on Main street, a few doors east of the Post Office, in the above place, where he intends carrying on the Barbering and Hairdressing business in a very various and complete manner. He will at all times be ready to take by the nose all who may favor him with a call, and hopes by strict and decisive attention to business, together with a due regard to pre-natal development, and physiological delineations, to be able to render general satisfaction.

HENRY H. WILLIAMS.

N. B. Sick persons will be waited upon at their dwellings.

Property for Sale.

THE subscriber wishes to sell his property situated on Main street, New Philadelphia, consisting of a House and Lot. The building is two stories high, 52 ft. front, nearly new, having been built within 18 months; good cellar, 6 rooms, hall, dining room and kitchen, smoke house and other outbuildings; good well; a new cistern, holding about 80 or 90 barrels of rain water; and a back shop, story and a half high. The whole conveniences are situated on as good a lot as any in the town, making a very desirable piece of property for any person whatever, and will be sold on reasonable terms. Person's wishing to purchase, will please call and examine.

DANIEL O'DONNELL.

New Philadelphia, April 18, 1842. 14 ly

BRANDRETH'S PILLS.

The remarkable cures which have been effected by Brandreth's Pills, have astonished the medical faculty many of whom have conceded that they are the greatest blessing that ever was given to the world. The reason these celebrated Pills have such a universally good effect is because their action harmonizes with the human body.

Purge out the old leaven, that ye may become new lump," is the language of Holy Writ. A figure applied spiritually, it is true, but how could it have any application unless confirmed by practical experience in the body of matter. The foundation upon which this figure of scripture rests is as immovable as the laws which govern the tides, or that occasion the thunder of Heaven.

"The Condition."

The condition upon which God has given health to man is a constant care to keep his stomach and bowels free from all morbid or unhealthy accumulations. The means to effect this must be those remedies which cleanse the system and purify the blood.

Good healthy medicine is only a species of food; when the animal, whose habits we have the means of observing, are sick, they wander through the fields, and make selections of those herbs which open their bowels and purify their fluids, which immediately restore their health.

When a dose of Brandreth's Pills are taken, they are digested, and pass to every part of the system, but they leave the body when they have effected the intended purpose, and health and vigor are by them insured.

Mineral medicines may enter the system; but they with difficulty get out again; and they always occasion pain and misery while they remain in the body; whereas Brandreth's Pills are as innocent as a piece of bread, and are evacuated with the disease for which they are taken.

From the time we are born to the time we cease to breathe, our bodies are constantly wasting, and as constantly building up. The food we eat, the digest, organs convert into blood, which renews or builds up by its circulating power. Thus the human body is healthy when the blood circulates freely, and when any thing prevents its free course throughout the veins, disease commences.

Costiveness, Dyspepsia, Fevers, Inflammations, are all owing to this, and all the troubles attending them could always be prevented by the timely use of Brandreth's Pills, as their very action at once tends to clear the circulation of all impediment, and remove every cause or occasion of impurity from the blood. There are thousands—nay, millions—at this moment, in this country, and all others, whom we may consider as half dead. They may be said to carry their death in their bowels and circulation. This is no imaginary circumstance.

I wish it were. The thousands whom we most every where see with cadaverous looks, yellow skins and green eyes, speak in a language not to be mistaken, of the state of their stomach and bowels, and the consequent condition of their blood. The body is thus, while in life, reduced to the condition of a corpse; and the reason why some bodies are soon in a putrid condition after death is more from the quantity of impure humors contained in them at the time they expire, than from any other cause. And who is there that will not allow that if Brandreth's Pills had been employed; so as to have removed those impure humors, that life might not have been saved? Whoever will but give this subject a very little consideration, will at once perceive the perfect identity between the putrid humors of the body before death, and the humors which occasion the peculiar odor of a dead body.

The counterfeit's death blow.

The public will please observe that no Brandreth Pills are genuine unless the box has three labels upon it, each containing a fac-simile of my hand writing—B. Brandreth. The labels are engraved on steel, beautifully designed, and done at an expense of several thousand dollars. Remember the top, the side, and the bottom.

Entered according to act of Congress in the year 1841, by Benjamin Brandreth, in the Clerk's office in the District Court of the Southern District of New York.

Each agent who sells the TRUE Brandreth Pill, has an ENGRAVED CERTIFICATE of Agency, RE-NEWED every twelve months, and has entered into bonds of \$500 to sell none other Pills than those received from Dr. B. or his special General Agent. MARK the certificate in ALL engraved except the Doctor's name, which is in his own hand writing. OBSERVE on each certificate there is an exact copy of the THREE LABELS on each box engraved thereon. PURCHASER, see that the engraving of the labels on the certificate correspond with those on the box.

The following are Dr. Benjamin Brandreth's Agents, for the sale of his vegetable Pills, in the counties of Tuscarawas, Carroll, and Holmes, who are supplied with the new labelled boxes.

IMPORTANT WORK!

DICTIONARY OF ARTS MANUFACTURES AND MINES.

Containing a clear exposition of their principles and practice. By Andrew Ure, M. D. F. R. S., M. G. S. M. A. S., Lond. Mem. Acad. N. S. Phila. S. P. Soc. N. Germ. Hanov. Muli. etc. etc.

This is unquestionably the most popular work of the kind ever published, and a book most admirably adapted to the wants of all classes of the community. The following are the important objects which this treatise and author endeavors to accomplish: First—To instruct the manufacturer, metallurgist and tradesman, in the principles of their respective processes, so to render them, in reality the masters of their business, and to emancipate them from a state of bondage to such as are too commonly governed by blind prejudice and vicious routine.

Secondly—to afford merchants, brokers, dry salters, druggists and officers of the revenue, the accurate descriptions of the commodities which pass through their hands. Thirdly, by exhibiting some of the finest developments of chemistry and Physics, to lay open an excellent practical school to students of these kindred sciences. Fourthly, to teach capitalists who may be desirous of placing their funds in some productive branch of industry, to select judiciously among plausible claims.

Fifthly, to enable gentlemen of the law to become well acquainted with the nature of those patent schemes which are apt to give rise to litigation. Sixthly, to present to legislators such a clear exposition of the staple manufactures, as may induce them from enacting laws, which obstruct industry, or cherish one branch of it, to the injury of many others.

And lastly, to give the general reader, intent chiefly on intellectual cultivation, views of many of the noblest achievements of science, in directing those grand transformations of matter to which Great Britain and the United States owe their paramount wealth, rank and power, among the nations of the earth. The latest statistics of every important object of manufacture are given from the best and usually from official authority at the end of each article. The work will be printed from the second London Edition, which sells for 12 dollars a copy. It will be put on good paper in new heavier type, and make about 1400 five pages. It will be issued in twenty semi-monthly numbers. (in covers) at 25 cents each, payable on delivery. To any person sending us five dollars at one time in advance, we will forward the numbers by mail, post paid; as soon as they come from the press.

To subscribe agents, this affords a rare opportunity; as we can put the work, in three terms of the subscription, in every manufacturing town; and every village throughout the United States and Canada; subscribers may be obtained with the greatest facility. Address post paid; Messrs. D. Appleton & Co. 200 Broadway New York.

To every editor who gives this advertisement 12 insertions we will forward to order, one copy of the whole work provided papers containing this notice be sent to the New York Watchman N. Y. 16 12w

A New Volume,

MAY 1, 1842.

THE SATURDAY POST.

A FAMILY SHEET OF THE MAMMOTH CLASS

A new volume of the popular family Newspaper, the Saturday evening Post will be commenced on the first day of May 1842, beautifully printed on the finest white linen paper. The Post is the oldest and best family newspaper, in the Union, having already got to the commencement of the 23d Volume.

While scores of papers were then started in the last 23 years, have passed away for ever, the post still maintains its proud position in point of circulation and profit. At the head of the fat fly newspapers of the day.

The great size of the paper enables the proprietor to give a greater variety of original and selected matter than can be found in contemporary sheets. The paper has been greatly ENLARGED AND IMPROVED.

And now appears in handsome new type, and has received the praise of the editors as the handsomest family sheet in the Union." Our efforts have been directed to the combining of beauty and simplicity, with utility and taste. The post is printed a stout white paper rendering it neat and durable for filing; while in size it surpasses every other weekly newspaper in Philadelphia, and has received from its contemporaries the title of

THE PHILADELPHIA MAMMOTH.

The great size of the paper enables us to give all important Congressional proceedings at length, and all reports and other public documents in full, together with occasional Congressional speeches in full.
